<b>Chapter 1 Introduction</b>	<b>7</b>
<b>Chapter 2 Green oak past and present</b>	<b>10</b>
2.1 The medieval period	10
2.2 The post-medieval period	12
2.3 The present day	13
<b>Chapter 3 The supply of green oak</b>	<b>16</b>
3.1 Timber supply	16
3.2 Environmental issues	17
3.3 Costs	20
<b>Chapter 4 The properties of oak</b>	<b>22</b>
4.1 The living oak tree	22
4.2 Timber properties	23
4.3 Moisture content and drying movement	24
4.4 Durability	29
4.5 Strength properties	31
4.6 Creep deflection	33
4.7 Working qualities	33
4.8 Chemical properties	33
4.9 Behaviour in fire	34
<b>Chapter 5 Design of green oak structures</b>	<b>35</b>
5.1 The design of the frame	35
5.2 Performance of the structure	39
5.3 Historical forms as models for today	43
5.4 Drying movements	54
<b>Chapter 6 The green oak framing process</b>	<b>56</b>
6.1 The traditional approach	56
6.2 Automation	58
6.3 Selecting the timber	59
6.4 Appearance considerations	69
<b>Chapter 7 Enclosing green oak structures</b>	<b>74</b>
7.1 Design criteria and construction forms	74
7.2 Construction detailing	74
7.3 Drying movements and maintenance	77
7.4 Example details	77
<b>Chapter 8 Exterior uses of green oak</b>	<b>90</b>
8.1 General approach to durability in design	90
8.2 Appearance grading	95
8.3 External cladding	95
8.4 Decking	96
8.5 Bridges and other external structures	98

<b>Chapter 9 Case Studies</b>	<b>102</b>
Historic reconstructions:	
9.1 The Globe Theatre	104
9.2 Stirling Castle Roof	108
Traditional models:	
9.3 Mill O'Braco house	112
9.4 Abingdon School Boathouse	114
Modern frames:	
9.5 New roof to the South Transept of York Minster	118
9.6 Bedales School, Olivier Theatre	122
9.7 Darwin College, Cambridge	124
Innovative frames:	
9.8 Weald and Downland Museum Gridshell	129
Exterior uses	
9.9 The National Maritime Museum, Falmouth	133
9.10 Ealing Bridge	136
9.11 Polesden Lacey Bridge	139
<b>Appendix I Specifying oak for traditional framing</b>	<b>141</b>
AI.1 Defects	141
AI.2 Specification	143
<b>Appendix II Green oak strength grading rules</b>	<b>148</b>
All.1 Scope	148
All.2 The grades	148
All.3 Definitions	149
All.4 Measurement of features	150
All.5 Grade limits	155
All.6 Reference documentation	159
<b>Appendix III Engineering design data</b>	<b>160</b>
All.1 Strength design to BS 5268-2: 2002	160
All.2 Strength design to Eurocode 5 Part 1.1	161
All.3 Deflection of beams	161
All.4 Self weight of frames	163
All.5 Strength of pegged joints in tension	163
<b>Appendix IV The green oak strength grading rules: Quick reference sheet</b>	<b>164</b>
<b>References and further reading</b>	<b>166</b>
<b>Glossary of terms</b>	<b>172</b>
