

Relax, we're the real experts in flexible door servicing.

Welcome to the Arnold Laver Door Servicing Centres...

...where all required work is carried out on site to our customers' specifications, thus ensuring a fast and efficient service. Our core range offers exceptional flexibility, choice and availability and bespoke designs are also available on request.

Arnold Laver Timber World is a nation-wide company and is widely recognised as a top quality and price conscious supplier to the building and associated industries. We can provide a 'one-stop-shop' solution covering every aspect of the timber trade - from flooring and decking to engineered floor joists, and of course a full range of timber and joinery products - no one knows wood better than we do.

Our customers will already be aware of the importance we place on service and the level of expertise available from staff at our depots around the country. However, our Door Servicing Centres takes this service to another level, offering design, manufacture and technical support on every aspect of door provision for both domestic and commercial properties.

The entire process is carefully controlled and monitored, from the selection of raw materials, through precision machining, to prompt delivery anywhere in the UK.

Our Door Servicing Centres provide a wide range of options, including an excellent choice of veneers, apertures, glazing and sizes, with fire-rated doors and aluminium portholes also being available to enhance the flexibility of our service.

Profiles, Veneers and Sizes

The veneered door range is supplied in a variety of standard veneers with some specials available to order. Doors can be supplied with lipped or over veneered edges and come pre-lacquered. Due to the beauty of the real wood veneer there will be some colour variation, and dark and light shades will sometimes be apparent. All internal doors are available in standard imperial and metric sizes, although some may be made to special order.

Both FD30 (44mm) fire doors and 35mm hollowcores are available.

A service is available on FD30 fire doors for letter plates, square meeting stile pairs and machining for intumescent strips to 3 sides of the door.

NB FD30 is only achieved when using the correct frame and intumescent seals.

Sizes available.

1981mm x 457mm (6'6" x 1'6")
1981mm x 533mm (6'6" x 1'9")
1981mm x 610mm (6'6" x 2'0")
1981mm x 686mm (6'6" x 2'3")
1981mm x 762mm (6'6" x 2'6")
2032mm x 813mm (6'8" x 2'8")
1981mm x 838mm (6'6" x 2'9")
1981mm x 864mm (6'6" x 2'10")
1981mm x 914mm (6'6" x 3'0")
