The **Complete** Carpentry **Solution**

The leading industry award

The Building Safety Group

About Us

- Our goal is to provide our customers with the highest service and satisfaction. We do this by delivering the best quality Carpentry projects throughout the South West, focusing on the end product whilst always being mindful of getting there safely.
- We achieve this by drawing on our in-depth industry experience, our enthusiasm to work with the whole project team and to produce the solutions that achieve successful high-quality projects every time

Our Tradesman

- Our tradesman are our most valuable asset, they are highly skilled, dependable, and professional. This is what makes Constructs unique and highly responsive to your needs.
- We are passionate about becoming a vital part of every project and consistently delivering outstanding workmanship. With a proven work force, we are confident in what we can achieve and that's why we provide high quality every time.

Health & Safety

Pride

- We pride ourselves on our Safety record, our easy to follow safe systems of work are proven and all comes to your project well documented. All team members can easily follow its procedures and is promoted as a working document, therefore ever evolving to ensure the safest methods are being used specifically to your project.
- Our expectation is to ensure that we send everyone home in the same condition as they came to work

Training

- Training- is a high priority and all tradesman are regularly assessed for training needs to ensure competencies in their daily activities and awareness
- We work in partnership with our external advisors the Building Safety Group, whom hold NEBOSH certification. Inspections, audits and reviews are undertaken regularly to ensure compliance to all current legislation and best practices.

Quality Control

Exceptional quality carpentry is no accident, with diligent attention to detail our standards will not be compromised. This all begins with careful planning and is executed with diligent inspections and hand over.

Commitment-

We are committed to maintaining the highest professional, quality, safety and environmental standards at all times.

This commitment seeks to ensure that we:

- Develop: a full understanding of the needs of our customers
- Co-operate: closely with all parties so that the right, quality work is provided first time
- Maintain: reliable and effective communication and collaboration.
- Improve: operational efficiency and make cost savings wherever possible.
- Respect: our environment and our surroundings
- Feedback: actively seek feedback and review each of our projects
- Develop: our greatest asset- our tradesman- to maximize their full potential

Customer Satisfaction –

Delivering quality workmanship is a major factor in achieving our overall goal of outstanding Customer Satisfaction, we understand the importance of quality to all our customers

Q Mark, Trada Fire Door Installers

BM TRADA

The leading authority on wood

With the correct installations of fire doors more important than ever in the current market, we are pleased to provide a fully audited, fully accredited fire door installation service.

Our supervisors are trained in the recognised methods and fully audited to ensure we install fire doors to the highest required standards.

James Hardie Preferred Installers

Working closely with James Hardie we are preferred installers of their cladding systems. We have gained vast knowledge of these systems which not only provide value for money, but a low maintenance and fire compliant.
